

Membership Fee Regulations for glasspool (registered association)

§ 1 Basic Principle

These regulations are not part of the Association's statutes. They specify members' obligations with regard to fees and also the nature and levels of the fees required. The regulations can only be altered by the General Meeting of the Association.

§ 2 Decisions

The General Meeting determines levels of membership fees.

§ 3 Membership Fees

1. Individual membership

50 Euros/Annual Subscription

2. Juridical person member

120 Euros/Annual Subscription

3. Concession for individual members

20 Euros/Annual Subscription

School-children, trainees, students, recent school leavers [during their first year after school], pensioners, disabled persons, benefit recipients, second family members

4. Registered association

Membership on a reciprocal basis

Existing membership status on a given payment day determines the level of the fee required. Applications for concessionary fees must be submitted together with the appropriate documents to substantiate them. The Board decides which fee from among those set out by the General Meeting is appropriate in each individual case. Members need to notify the Association as soon as possible about any changes in their personal circumstances. The membership fee will be debited from the member's bank account through an authorized standing order at the beginning of each year. Contributions of equipment and donations over and above the membership fee are at the discretion of each individual member. With regard to a request from a juridical person for membership as a registered association, glasspool will consider its own readiness to join the association in question (membership on a reciprocal basis).

§ 4 Payment Date

The membership fee is currently always to be paid in advance and for the whole financial year. If a member joins after June 30th he/she will be charged only 50% of the membership fee.
